

THE \$CARPET ROADMAP

The first stage, of our \$CARPET meme coin project, aims to be the biggest charitable project on the XRPL. We have our own unique weekly airdrop events, where people simply have to like, repost, share picture of any carpet with XRP wallet attached to the message, who already have our \$CARPET trustline.

AWARENESS

Every weekly airdrop will consist of 0.5% of the total \$CARPET supply. We don't allow cheating and will be checking every comment, so take part in those airdrop events and do them properly.

EXPANSION

The second stage, of our project will evolve in late December 2024, or early January 2025 and will be called Carpet Monsters. The Carpet Monsters will be an NFT mint event on <https://x.com/biddsonxrpl>. When we are ready, everyone will be able to mint our \$CARPET monsters, who have all kinds of shapes and colors, allowing every member of the Carpet Ecosystem to create unique identity.

SUCCESS STORIES

DECISION

The third and final stage, is only an idea and we have a lot of work throughout 2025, so we can manifest it into reality. We are aiming to grow slowly but steadily, so we can have the chance to create PFP Card Game, where each Carpet Monster will have the chance of gaining random Attack and Defense stats.

CARD GAMING AND MERCHANDISE

Players will fight in 1 vs 1 fights, where each player will have 10 Monsters under his command and fight with his Carpet Monsters in the arena. Around the same time we also want to launch Carpet Monsters merch and Monster plushies.

Third stage progress will depend on the progress and growth created in the first two stages

1 VS 1 ARENA BATTLE
